# WELCOME TO OUR 2019/20 DIRECTORY

It has been a busy year at JB, with lots of new friendly faces within our team, refurbishments to our offices and we have introduced a wide selection of new products to the range. In November 2018, we were recognised for our high service standards by being accredited with Grade 'A' BRC Global Standard for Storage and Distribution.

This year's Directory is bursting full of inspiration and recipes for your menus for the year ahead. Packed full of great food and all the ingredients you need to create the perfect menu.

We have had some exciting product launches at JB in the last 12 months, adding a huge number of new products to our offering. We hope you enjoy the latest edition which showcases the extensive range we have to offer.

Don't forget that the easiest way to place your order is online and via our mobile app. The app is free to download and means you can place your orders whilst on the go. You can see all the latest pricing information, product images and stock availability. Why not give it a try? If you have any questions or would like a demo, please do get in touch with your sales representative.

We hope you enjoy our 2019/20 Directory and as always, please do not hesitate to contact our sales team if you have any questions regarding any of the products in this brochure.

We look forward to working with you.

Best wishes,

**Lee Brown**

It's simple... All of our beef is matured for a minimum of 28 days. It has a deep red colour, characteristic of its time spent ageing.”

# Allowing you to cater for all dietary needs...

**W**e understand the importance of being able to offer gluten free and vegan options on your menus. That is why we have indicated where either is applicable. Look out for the **GF** indicating gluten free products and **VG** highlighting those that are suitable for vegans. For a quick reference and to view the gluten free and vegan range at a glance - check out the "Allergen Guide" p304-307 Please be aware that specifications are

subject to change, all products listed were correct at time of going to publication. Manufacturer production methods and specifications are however subject to change at any time. It is always best to check supplier specifications via a member of the sales team or request access to the Erudus One specification system, giving you the ability to check products as you require.

**DEFINITION - Veganism** - Is a way of living which seeks to exclude, as far as is possible and practicable, all forms of exploitation of, and cruelty to, animals for food, clothing or any other purpose.

There are many ways to embrace vegan living. Yet one thing all vegans have in common is a plant-based diet avoiding all animal foods such as meat (including fish, shellfish and insects), dairy, eggs and honey - as well as products like leather and any tested on animals.

**DEFINITION - Gluten Free** - In some cases individuals make a lifestyle choice to actively avoid gluten, however some have little choice given serious health conditions. If you have coeliac disease and or dermatitis herpetiformis you have to avoid gluten for life. The gluten free diet is the only treatment for the condition. On the gluten free diet you can eat many foods including meat, fish, fruit, vegetables, rice and potatoes. You can also eat gluten free substitute foods and processed foods that don't contain gluten. If you have coeliac disease, your immune system reacts to gluten and leads to damage to the lining of your gut. This causes symptoms of coeliac disease, including bloating, diarrhoea, nausea, tiredness and headaches. This only happens if gluten is eaten.

By avoiding all gluten (some people also need to avoid oats), your gut can heal and your symptoms should improve. A gluten free diet is the only treatment for coeliac disease.

On the gluten free diet you can eat any naturally gluten free foods, such as:

- meat
- fish
- fruit and vegetables
- rice
- potatoes
- lentils

You can also eat processed foods which don't contain gluten, such as ready meals and soups.

# Humble Beginnings...

**O**ur JB Foods story started in our first JB Foods shop, which was situated just a mile away from Princes Street on Montrose Terrace in the heart of Edinburgh.

It all started when my father, Jack Brown, loaded his first order into a mini van back in 1963 and began supplying whole cooked chickens to the fast food industry. He originally worked as a porter for Mr Spence of Scotia Poultry and asked his boss if he could buy a few cooked chickens and try selling them to a different market, which was fish and chip shops. This was done with a keen desire to offer the best value along with an unrivalled quality of service. Over 50 years on and that JB ethos is central to what we do today.

The picture below was taken when my grandfather (right) gave up his job to come and help my dad. Without his help the business might have come to an end as a car smashed into the side of the van that my dad was delivering in. He was rushed to hospital with broken legs and there was no way he would have been able to keep servicing his new customer base. Grandfather stepped in whilst dad was in hospital and kept the deliveries going - by that time we had upgraded to a Volvo Estate and had our first shop. After 10 years of hard work we nearly owned the whole street, we had 7 shops linked together with freezers in all of the big basements and a yard in the back close to park up the vans at night.

Our humble beginnings in the industry has given us a wealth of experience and understanding of what it takes to make the grade as a trusted, reliable supplier today.

# QUITE A CATCH

Versatile cold water prawns are a staple of every menu. Keep the Chefs' Selections range in your freezer and you'll have oceans of options, tempting seafood-loving diners.

## COLD WATER PRAWNS

Our cold water prawns are caught on the North Atlantic sea and come cooked, peeled and frozen.

## SINGLE FROZEN

Single frozen prawns are caught, cooked and peeled the same day so have a stronger, sweeter flavour. They are generally a higher quality of prawn, as they have only been frozen once.

## DOUBLE FROZEN

Double frozen prawns are caught and frozen at sea. They are then thawed, cooked, peeled and processed before being frozen again. These prawns are some of the best-selling prawns. They have a saltier taste and a firmer texture.
