AUTOMATION FOR A BETTER, SAFER KITCHEN

The MenuPilot™ application, coupled with streamlined corporate management of menu data via the MenuCommand™ web portal, reduces dependence on hardware and increases emphasis on platform. Together, these facilitate the centralised management and communication of critical menu data and training materials to foodservice operations. DayMark also delivers companion hardware with the Matt85™ direct thermal label printer and Android tablet, facilitating on-demand production of shelf-life, food rotation and complex grab & go product labelling.

Kitchen Automation Platform

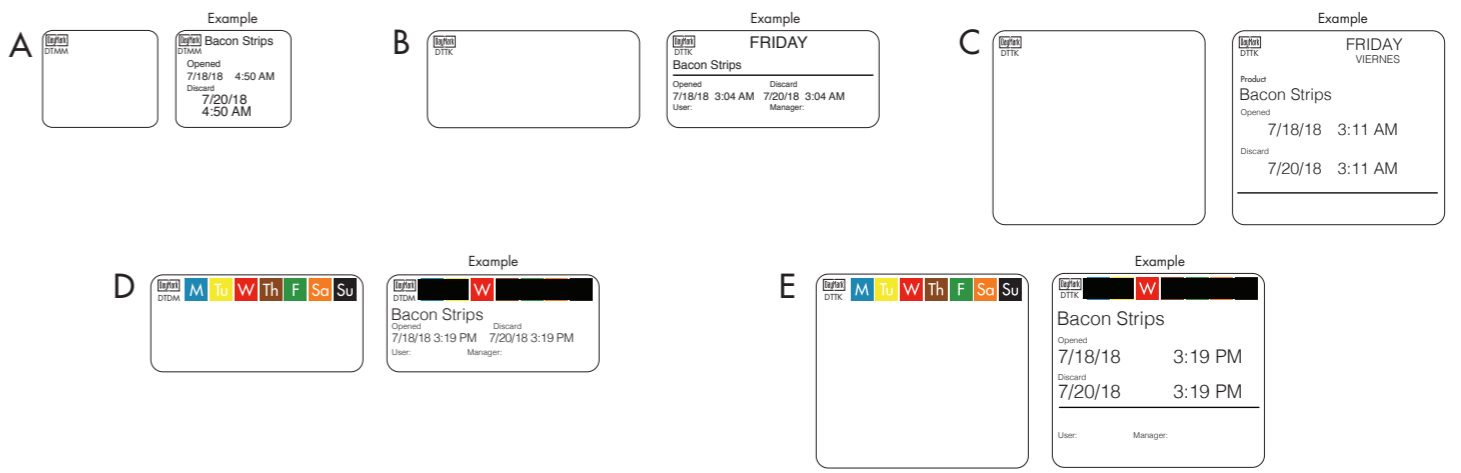

Features and Benefits

- Accessible from any internet connection
- Shelf life, nutritional facts, allergen information and prep data can be organised, monitored and modified virtually anytime and anywhere
- Secure and cloud-based
- Updates are securely and efficiently pulled in via the cloud
- Data changes can be communicated to staff at all locations immediately
- Seamlessly integrates with the Nutritics solution
- Video and recipe data can be uploaded at a central location and automatically shared with all connected store locations
- Provides a comprehensive overview, including announcements, account metrics and number of users currently using the platform
- Allows users to print labels wirelessly
- Eliminates the need to make costly repairs and maintain labour-intensive repair depots

Complete Food Labelling System

THE DIFFERENCE IS NIGHT AND DAY.™

NATASHA'S LAW COMES INTO EFFECT 1ST OCTOBER 2021

ARE YOU READY?

What is Natasha's Law?

As of 1st October 2021, any business based in England must clearly label all foods prepared and packed on their premises. The purpose of this new legislation is to give allergenic ingredients more prominence on product labels in order to protect hypersensitive consumers and give them greater confidence in the food they buy, following the tragic death of Natasha Ednan-Lapérouse in 2016.

This is an important and welcome step towards our ambition for the UK to become the best place in the world for people who have food allergies and intolerances.

The Food Standards Agency Chair, Heather Hancock

All pre-packed for direct sale foods will now need to have labels showing:

- The name of the foods
- A full ingredients list with the 14 allergens required to be declared by food law emphasised on the ingredients list if present.

Celery

Crustaceans

Egg

Fish

Lupin

Milk

Molluscs

Mustard

Peanuts

Sesame

Soya

Sulphur Dioxide

Treenut

Amber

Over 170 foods can cause allergic reactions according to statistics on food allergies.

(Research Gate)

The number of adult patients admitted to hospital because of allergies has more than doubled since 2013, reaching a record high of 27,172 in 2019/2020.

(Anaphylaxis.org.uk)

Anaphylaxis-type reactions occur in around one in 1,000 people worldwide.

(Allergy UK) (Mayo Clinic)

For further information and to see how you will be affected please visit the Foods Standards Agency website: <https://www.food.gov.uk/>
